# V Connect

Bringing you closer to the experts

No limits . No barriers - talk directly to product teams or interact with other users. Take your business to new heights with V-Connect.

"This is a really great website! The technical content is awesome! As a technician, I often consult the Website for frequently asked questions, knowledgebase or other like databases before I call tech support. V-Connect will provide me a place to come and check for answers to simple tasks. Thank you for making V-Connect!"

Dawn Schelenski, Certified Technician, Interconnect Systems.

"One of the biggest challenges for manufacturers and distributors is sharing information. The industry has changed so much, so fast that getting the correct information quickly is essential for good customer service. V-Connect is an excellent resource and includes capabilities not typically offered by other manufacturers."

Tom Czarnecki, Manager of Sales Engineering, Executone Communications.

Immediate access to essential product information including brochures, product sheets, pricing updates and software downloads.

News and events keep you up to speed on current information, promotions, schedules and more. An interactive calendar shows you exactly what is happening and when.

Powerful product dashboards help you find the latest product information faster. Quickly search for resources or even add watches on certain files so that you are automatically notified when they are updated.

Download individual files or multiple files concurrently. V-Connect enables you to look through various product dashboards and then when you are ready download whatever you need.

TeamTalk enables you to **quickly discuss anything** of interest with the experts behind our products. Discuss, suggest and ask. Track your *TeamTalk* cases until they are resolved.

Search for information from anywhere. A consistent toolbar enables you to navigate, start a new *TeamTalk* or search any dashboard.
